Focus on Energy Program

Department of Administration, Division of Energy

- Public Benefits program Created by Wisconsin Act 9 in 1999
- Includes Energy Efficiency and Low Income Programs
- Act 9 requires a non-profit Administrator
- Renewables (4.5%) and Environmental Research (1.75%) funding percentages are specified in Act 9

Organizational Chart for Public Benefits Programs

Focus on Energy Partners

- **Over 3,000 market providers:**
 - **25 Manufacturers**
 - **55 Distributors**
 - **415 Builders**
 - **865 Retailers**
 - **265 Consultants/Architects/Engineers**
 - **1,050 HVAC Contractors/Plumbing**
 - **200 Electrical Contractors**
 - **55 Photovoltaic/Wind/Solar H2O Firms**
- **45 Trade Organizations**
- **85 Implementation Contractors**
- **All Class A Utilities and Participating Municipal Utilities**

Benefits by Sector (July 2001-March 2005)

	Business	Residential	Renewable	Total
Electricity kWh Savings	393,696,977	284,686,381	24,972,240	703,355,598
Natural Gas Therms Savings	26,351,793	6,067,583	344,247	32,763,623
Energy Cost Savings (annually)	\$41,090,208	\$31,319,743	\$2,572,542	\$74,982,493

Environmental Benefits

(July 2001-March 2005)

- Emissions Reductions in Pounds:
 - Nitrogen Oxides- 4,009,127
 - Sulfur Oxides- 8,580,938
 - Carbon Dioxide- 1,547,382,316
 - Mercury- 34

Other Non-Air Quality Benefits

Other “public benefits” as reported in the Focus evaluations:

- State receives a net return of \$6.56 for every dollar spent on the Focus on Energy program

Business Programs

- Commercial
- Industrial
- Agriculture
- Schools & Local Government
- Lighting Channel
- Heating and Cooling Initiative
- Motors and Variable Frequency Drives

Business Program Barriers

- Cost Differential of Energy Efficient Equipment
- Lack of Knowledge or Information
- Change viewed as risky to their operations
- Limited Product Availability

Business Program Lessons

- Work with end-use customers (demand side)
- Working upstream in the market channel (supply side)
- Technical Assistance
- Education & training
- Financial incentives

Business Program Incentives

- **Agricultural:** lighting, milk-house equipment, fans
- **Commercial Specialty:** anti-sweat heater controls, pre-rinse sprayers, Guest Room Energy Management, pc network energy management
- **Compressed Air Incentives:** nozzles and feasibility studies
- **HVAC:** boilers, furnaces, set-back thermostats, air conditioners etc.
- **Motor and VFD:** Between \$2 and \$5 per Horse Power

Business Program Incentives

- **Lighting:** lamps, fixtures, ballasts, LED exit signs, occupancy sensors etc.
- **Custom grant** - promotes a “systems” approach when synergies from multiple measures provide greater benefit. Up to \$100,000 per project
- **Feasibility Studies** – Up to 50% of project cost, maximum of \$7,500 per study
- **Service Buy-Down** – cash grants for energy efficiency maintenance solutions
- **Prescriptive-** set dollar amount per unit installed

Residential Program Incentives

ENERGY STAR Compact Fluorescent bulbs (CFLs)
\$1.50 per bulb

ENERGY STAR residential appliances: incentives between \$25 and \$100 depending on the appliance

- Clothes Washers
- Dehumidifiers
- Room AC
- Torchieres
- Refrigerators
- Freezers
- Dishwashers
- Lighting fixtures
- Ceiling fans

Renewable Program Incentives

Key barriers to projects:

- Marginal economics due to lack of consistent buyback rates, etc.
- Equipment uncertainties
- Lack of knowledge about benefits & what's involved

FY06 Financial Incentives:

- Feasibility grants (up to \$10,000)
- Low interest loans: up to \$4,000 to buy down interest rate for purchase of residential renewable energy systems
- Cash-back Rewards and Implementation grants, up to \$10,000 to encourage customers to purchase renewable energy systems
